

The Culpeper Horse Owner's Association urges our Supervisors to plan for the development of equestrian trails, parks and public river access in Culpeper County.

HERE'S WHY:

- **Tourism represented \$19.2 Billion dollars in revenue for Virginia's last year.**
(Virginia Tourism Commission 2009)
Can Culpeper County afford *not* to have public river access, shared trails and river-side parks?
- **The Best 100 U.S. Counties for small business credit their quality-of-life assets for attracting an educated workforce which in turn attracts Fortune 500 companies.** (CNN Poll 2009)
Small business provides 7 of every 10 jobs in the U.S.A.

- **Multi-use trails increase property value.**

In Loudoun County, homes next to the Washington and Old Dominion Rail-Trail sell sooner and at a higher premium than properties across the street.

Since 2004

Culpeper Horse Owner's Association

An organization of neighbors working to promote and enhance Culpeper County's horse industry by establishing trails and rights of way in cooperation with property owners and local government.
